

BDR Solutions, LLC supports U.S. Federal Civilian and Defense agencies in successfully achieving their mission and goals by providing best-value, professional services.

BDR's service offerings include Program Management, Advisory and Assistance Services, Agile Software Development, and Systems Integration support services. Our service and solution delivery starts with understanding each client's end-state, and then seamlessly integrating within each Agency's organization to improve and enhance business and technical operations and deployments. BDR is certified as a Service-Disabled Veteran-Owned Small Business (SDVOSB), Historically Underutilized Business Zone (HUBZone), and Minority-Owned Small Disadvantaged Business (SDB).

Core Competencies

- Program Management
- Advisory & Assistance Services (A&AS)
- Agile Software Development
- Systems Integration
- Data & Business Analytics
- SDLC Support
- Health IT Modernization
- Cyber Security
- Supply Chain Management
- Training

Government Clients

Department of Veterans Affairs (VA)
Defense Health Agency (DHA)
Defense Intelligence Agency (DIA)

Company Information

- DUNS: 080197433
- CAGE: 7L2H8

Socio-Economic Designations

- CVE – Verified, Service-Disabled Veteran-Owned Small Business (SDVOSB)
- Certified Historically Underutilized Business Zone (HUBZone) Small Business
- Small Disadvantaged Business (SDB)

Past Performances

Department of Veterans Affairs (VA)

James A. Lovell Federal Health Care Center (JALFHCC) Guest Internet Access (GIA)

- Planned, surveyed, deployed, and manage a turnkey wireless guest internet access solution at JALFHCC.
- Developed the guest internet landing page, monitor performance, and manage web content filtering.

Laboratory Systems Re-engineering Project (LSRP) Product Support

- Upgraded VA's Huntington, West Virginia, 'Alpha Site's' laboratory system from VistA Applications to Cerner Millennium PathNet Laboratory Information Management System (LIMS).
- Provided implementation, disaster recovery support, technical support, system security, network connectivity, application support requirements, testing, O&M, code review and fixes, licensing, and transition support.

Enterprise Program Management Office (EPMO) Benefits Appeals and Memorial Program Management Office and Technical Management Support Services (BAM PMO)

- Provide program and project management support for various VA OI&T projects within the BAM Portfolio.
- Provide administrative support, meeting support, capital planning and investment, communications, technical writing, configuration management, onboarding, requirements elaboration, functional analysis, implementation management, release management, schedule support, strategic analysis, engineering and technical support.

Community Care Reimbursement System (CCRS) Development

- Provide project management, requirements analysis, design, development, COTS integration, testing release support, warranty, and documentation for requirements supporting the CCRS program.

Enterprise Reporting and Analytical Support (ERAS)

- Support VHA's critical Care in the Community / Revenue Operations (CC/RO), which manages Veteran registration, eligibility, determination, enrollment, medical information management and a broad range of revenue and recovery activities specific to billing and collections.
- Provide operations and maintenance for CC/RO Reporting Systems and Data Warehouse to support performance metrics monitoring and reporting.

Employee Education System (EES)

- Design and implement a custom dashboard for VHA's Employee Education System (EES).
- Identify, transform, and cleanse data from disparate legacy sources into a central repository increasing overall system performance.

Veterans Benefits Administration (VBA) File Bank Extraction

- Perform file bank extraction services in support of file room reduction/closure at VA Regional Offices and facilities.

Defense Intelligence Agency (DIA)

Analytic Development Office (ADO), Knowledge Management Division (ADO-5)

- Provide technical analysis and engineering assistance with program, requirements, release management, and IT related multi-source task responses of the IT capabilities that support the entire range of the DI ADO-5 missions and tasks.
- Assist in IT planning, program management and deployment support, requirements management services and support, support for portfolio management, and process improvement.

Architecture and Information Technology (A&IT)

- Provide Architecture and Information Technology (A&IT) support to plan and coordinate, current and future Enterprise Architecture and IT needs among many customer sets in a joint operational environment that supports the mission of the Combatant Command (CCMD) and the Intelligence Enterprise (IE), with emphasis on the CCMD Joint Intelligence Operations Center (JIOC).
- Define the Command, Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance (C4ISR) Enterprise Architecture required to support the CCMD Theater Campaign Plans and Family of Plans, identify the deficiencies in intelligence processes and systems, and recommend solutions or mitigation in keeping with the Department of Defense Architecture Framework (DoDAF).

FEFA brings a stable history of established processes, proven capabilities, and corporate resources coupled with highly relevant experience in biotechnology, U.S. and international regulatory guidelines, research and development support, veterinary care and animal husbandry, and clinical research support. FEFA is an SBA Certified HUBZone firm that is also ISO 9001:2015 Certified. We have an established process for meeting and exceeding client expectations.

Regulatory Compliance

Providing support to ensure compliance with national and international regulations and guidelines from the FDA, OHRP, ICH-GCP EMA, as well as state and local policies.

Clinical Research

Research coordination and participant care services are offered for a variety of studies. Qualified staff with years of experience conducting projects scientifically, ethically and reliably.

Animal Research

Animal husbandry services performed 7 days per week, 365 days per year. Also providing animal health monitoring, surgical assistance, veterinary care, and facility management.

Laboratory Equipment

A distributor of high-quality laboratory equipment for the scientific community. We work closely with manufacturers to guarantee the successful performance of products for scientific research in broad areas.

Additional Services:

Subject Matter Experts

- Scientific and Technical Experts
- Regulatory Affairs
- Statisticians
- Biostatisticians
- Clinical Research Analysis and Review
- Data Management
- Scientific and Technical Writing
- Site Visit Observation Reports

General Services

- Database Administration
- Interactive Media and Multimedia
- Records Management
- Organizational Development
- Standard Operating Procedures
- Strategic Planning
- Strategic Sourcing Analysis
- Technical Assistance and Development
- Work Process Analysis

Additional Service Areas

- Staffing Support
- Scientific Equipment Maintenance and Service
- Pharmacovigilance & Clinical Safety
- Statistical Analysis & SAS Programming
- Quality Assurance
- Subject Recruitment
- General Scientific and Research Support
- Communications Services

Our past experiences of delivering quality solutions have included clients in both the commercial and federal sectors. The most visible and meaningful measure of customer satisfaction are positive feedback and a willingness to renew contracts year after year with FEFA.

Key Clients include a Diverse portfolio of Federal Customers:

- U.S. Environmental Protection Agency
- The National Institutes of Health (NIH)
- Department of Defense (DoD)
- U.S. Food and Drug Administration
- Multiple Corporate Partners

DUNS Number: 135174832

With full-service expertise and small-business responsiveness, FEFA senior scientists and biostatisticians, along with project managers and support staff, collaborate on study development, implementation, operations, data analysis, and reports. The staff supports our clients so they can deliver results in an efficient and cost-effective manner.

Division of Cancer Research and Training

Designed to include an administrative, research, planning and evaluation, and developmental core, all of which encompass programs that focus on the biology, etiology, prevention, detection, diagnosis and/or treatment of human malignancies.

HIV/AIDS

Providing both International, National and Community HIV/AIDS research. Our researchers fight the HIV/AIDS epidemic by studying the behavioral and clinical aspects of HIV/AIDS prevention and treatment. Our leadership and commitment to research have substantially advanced the understanding of and fight against the HIV/AIDS epidemic in underserved communities. Our international research has included areas such as Angola, Rwanda, Belize and Jamaica.

Clinical Translational Research Center

FEFA has access to a facility that is located in 5,000 sq. ft. outpatient and administrative unit with seven exam/treatment rooms, a processing laboratory and a dedicated consultation space for study participant interviews. We provide cardiovascular and metabolic assessment resources, a site dedicated pharmacist, negotiated lab fees for assays, and participant transportation. The Center offers additional conference room spaces and houses both Morphometry and Core Laboratories. Our clinical staff is knowledgeable and skilled in protocol implementation, data collection, phlebotomy, IV insertions, pharmacokinetic studies, administration of investigational drugs, multiple sample collection, Oral Glucose Tolerance Tests, glucose clamp studies, EKGs, and assisting investigators with minor bedside procedures. Pharmacy services include procurement, disposal, packaging, randomization and dispensing. Currently the center services seven actively recruiting studies in the areas of HIV/AIDS, Cancer, Social/Behavioral and Cardio-metabolic Research.

Animal Husbandry and Veterinary Support

FEFA employees perform tasks that include animal husbandry services on a seven days per week, 365 days per year basis. We also provide animal health monitoring, surgical assistance, veterinary care, and facility management. In the following subsections, we document our broad experience and expertise in providing animal husbandry, facility management, technical support, surgical support, veterinary care and health surveillance, transportation, and logistics and inventory management support services.

Biomedical Informatics

This core facility provides support in informatics applications in the areas of image transmission and display, video teleconferencing, and multimedia databases between participating institutions, using a high-speed network infrastructure and paved the way for joining "Internet 2". Information technology (IT) infrastructure is also useful acquiring, indexing, archiving, and extracting content (e.g., data mining) from large volumes of data.

Translational Science Research

Our team science activities are supported by eleven core functions: Biomedical Informatics; Community Engagement; Clinical and Translational Research Center; Research Design and Biostatistics; Evaluation; Innovations and Partnerships; Pilot Program; Regulatory; Research Education and Training; and two Technical Core Laboratories.

Elimination of Cancer Health Disparities

Numerous research projects are currently being conducted by the our staff, including basic laboratory research, community outreach and engagement and clinical trials activities.

Site Management and Monitoring

Geographically dispersed, experienced clinical research associates are well-versed in design, implementation and collection, and their analysis methods provide in house support to clinical sites for all study activities including initiating sites, performing interim and closeout monitoring, and ensuring regulatory compliance.

Laboratory and Scientific Equipment

FEFA serves as a distributor of high-quality laboratory equipment for the scientific community. We work closely with manufacturers to guarantee the successful performance of products for scientific research in broad areas. FEFA strives to provide innovative, cost effective products, and support to ensure complete satisfaction for our customers.
